

# PNEUMATIC CHEEK BENDER

The Vicon Cheek Bender will form 1/4" and 7/16" male quarter edge flanges to the cheeks of your fittings. An optional Button Punch lancing feature is available.

## FEATURES & BENEFITS

- ▶ Designed to form a 90° flange on either side of the unit

- ▶ 18-gauge mild steel capacity
- ▶ 24" wide bending capacity
- ▶ Foot pedal controls
- ▶ Inclined face for ease of use and better ergonomics
- ▶ Open ended allowing formation on either side as well as longer flanges with additional cycles
- ▶ Welded tubular frame
- ▶ Replaceable, hardened wear plate for use with plasma cut edge
- ▶ Slideout gauge allows for 1/4" or 7/16" bend
